**1.170A-9(E)(III) Percentage of Financial Support.**

The Organization received 23.51% of its support from public sources from 2012 to 2016.

**1.170A-9(E)(3)(IV) Sources of Support.**

The Organization has received its support from individuals, businesses, and foundations not related to the organization through either business or family relations. In addition to direct donations, many individuals have donated time and services to assist the Organization in its exempt purpose.

**1.170A-9(E)(3)(V) Representative Governing Body.**

The Organization has three boards that govern its activities:

1. The Board of Trustees does not represent the personal or private interests of a limited number of donors or related persons. All board members serve without compensation. Members of the board have special knowledge or expertise to assist in fulfilling its exempt purpose.

2. The Medical and Scientific Advisory Board is a volunteer board consisting of 18 physicians and scientists who have a specialty in dermatological research and genetics, with an emphasis in keratin disorders. Some members of this board are in contact daily with the Organization regarding research and patient care. Many are in contact several times each month. Conference calls are regularly scheduled with the entire group and with special sub-groups for planning. This board is

3. Voluntary Patient Advocates work through various social media, such as Facebook, to provide patient outreach and patient-to-patient support.

1.170A-9(E)(3)(VI) Availability of Public Facilities or Services;  
Public Participation in Programs or Policies.

(A) The fact that an organization is the type which generally provides facilities or services directly for the benefit of the general public...will be considered evidence that such organization is "publicly supported." In February 2004, the Organization organized the first international PC conference in which 23 of the leading keratin specialists attended, including Mario Capecchi (Winner of the 2007 Nobel Prize for Medicine). At the meeting, the group formed the International PC Consortium (IPCC) to encourage collaboration for PC research. There are now several hundred experts who are active members of the IPCC and each has agreed to collaborate and share reagents and expertise to assist other IPCC members in regard to PC research and patient care. The majority of these participants represent non-governmental organizations that serve members of a charitable class in their home countries. A list of participants can be provided if needed. Beginning with the 2004 Symposium, the Organization has sponsored an annual scientific meeting each year. The Organization also provides expertise directly for the benefit of the general public by responding to dozens of telephone, mail, and internet inquiries each week at no charge from public health officials, practitioners, and members of the general public. In many cases, members of the medical and scientific advisory board will provide responses when specific scientific or medical

opinions are needed. The IPCC has organized a steering committee to direct efforts of the IPCC and three working teams, including (1) a research team conducting basic and translational research, (2) a diagnostics and genetics team, and (3) a physicians network. Each of these teams actively provide public service to those with PC and many other related skin disorders.

(B) The fact that an organization is an education or research institution which regularly publishes scholarly studies...will also be considered evidence that such organization is "publicly supported." From 2004 to 2016, the Organization's board members and volunteers have contributed to over 80 scholarly studies related to PC and PC research. Publications can be provided for review if needed. Many are available online at <http://www.pachyonychia.org/research-articles/>. Also, IPCC newsletters have been published every quarter since 2004. In addition, numerous presentations on PC have been made by board members and volunteers in scientific meetings around the world.

(C) Similarly, the following factors will also be considered evidence that an organization is "publicly supported": (1) the participation in, or sponsorship of, programs of the organization by members of the public having special knowledge or expertise, public officials, or civic or community leaders. See (A) above for a description of the Organization's international Scientific Conference for examples of participation in, and sponsorship of, programs of the organization by members of the public having special knowledge or expertise, public officials, or civic or community leaders. In addition, the Organization has several other activities which demonstrate this broad public support:

1. Patient meetings have been held in the following locations:

Salt Lake City, UT (2004 & 2009) - Hosted by University of Utah

Kansas City, MO (2004) - Hosted by F.I.R.S.T

Dundee, Scotland (2004 and 2006) - Hosted by University of Dundee

Niagra Falls, Ontario (2005)

Park City, UT (2007)

Paris, France (2010, 2012, 2014)

Philadelphia, PA (2011)

Santa Cruz, CA (2013)

Newark, NJ (2015)

More than a dozen physicians and scientists volunteer their time and pay their own expenses to attend the patient support meetings. Patients and many of their family member attend support meetings. The meeting location alternates each year between Europe and the United States to give patients broad access to information and support.

2. The International PC Research Registry has Received Institutional Review Board Approval through the Western Institutional Review Board (Study #2004/0468/1057496). IRB approval has been renewed each year. This is the only active registry for PC patients in the world. There are nearly 2,000 patients registered. PC patients are registered from over 60 countries.
